OUR REGION: SICILY

Sicily is the largest of the Italian islands, separated from the Continent by the Strait of Messina. The Etna volcano is symbols of the irresistible beauty and vitality of this incredibly charming region.

Nature seems to have endowed all its wonders to this land: mountains, hills and above all the sea, with its incredible colors, its crystal-clear water.

Fascination for this region grows treasured with archaeological sites that tell the story of the ancient origins of TRINACRIA (ancient name for Sicily).

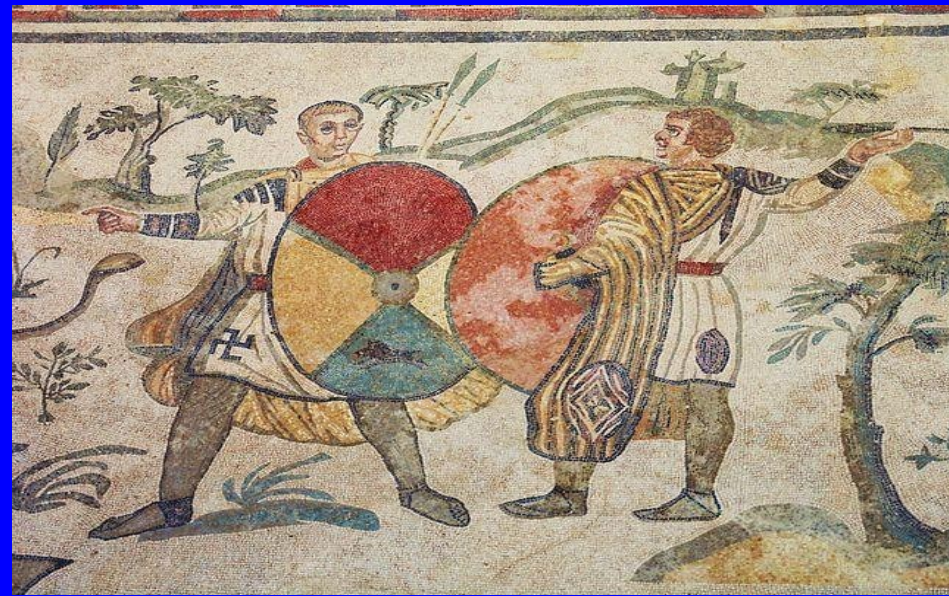

Our city : Mazzarino

The municipality counts 12.000 inhabitants, its surface measures 29.396 hectares, and its population density counts 44 inhabitants per square kilometre.

It is prevalently an agricultural center; the production of wheat, almonds, grapes, olives and arichokes is substantial. Cattle breeding is also very important and we mustn't forget the handicrafts, especially as per wood work.

Mazzarino was founded by Greeks in the 7th century BC and named *Maktorium*.

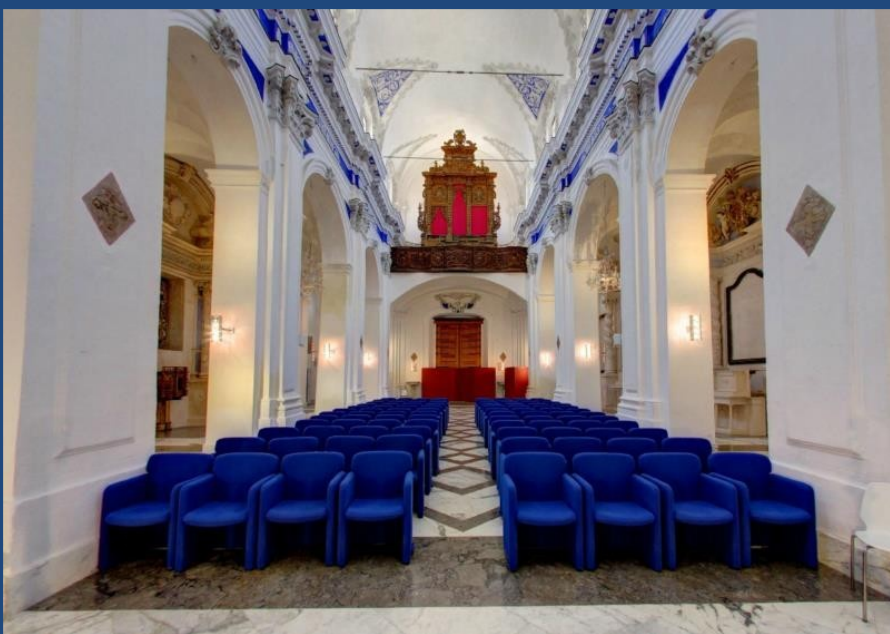

The current old town centre was created in the Middle Age near the ruins of the Arab castle.

Thanks to its charming and fascinating churches, Mazzarino is considered one of the best preserved example of Sicilian Baroque in the province.
